

ProVac® LC-250 LOGO TD Vacuumsystem

Value for Money!

Robust and versatile

Although it is compact in size there is a lot of potential to evacuate air and gazes from dies to cast quality-parts up to 20 kg Al shotweight.

High value for money combined with various options to program the unit and monitor the quality of casts.

For DCM from 600 - 25'000 kN and more than just simple parts.

250-litres tank with pump 40 m³/h
